DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 12 to 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 12 to 30 are rejected as being vague and indefinite because independent claims 12 and 27 require a specific amount of aluminum (3 to 6.5 weight percent) in the outer layer of the protective coating and also state that the aluminum content can be present up to 6.5 weight percent. It is not clear whether the claims are defining an outer layer that must contain a specific amount of aluminum or permitting aluminum as an alloying element to be completely absent from the outer layer.

2. Claim 18 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 18 recites the limitation "the Yttrium of MCrAlY of the intermediate MCrAlY layer or the outer layer" in lines 1 and 2 of the claim. There is insufficient antecedent basis for this limitation in the claim.

3. Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1775

Claim 19 recites the limitation "the Yttrium of MCrAlY of the intermediate MCrAlY layer or the outer layer" in lines 1 and 2 of the claim. There is insufficient antecedent basis for this limitation in the claim.

4. Claim 29 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 29 recites the limitation "the Yttrium of MCrAlY of the intermediate MCrAlY layer or the outer layer" in lines 1 and 2 of the claim. There is insufficient antecedent basis for this limitation in the claim.

5. Claims 18, 19, and 29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 18, 19, and 29 are rejected as being vague and indefinite because each claim states that the yttrium of the MCrAlY layer or the outer layer can be added and/or replaced by another element. It is not clear that the claimed alloy composition in each claim can simultaneously contain the element yttrium and have that element replaced by another alloying element.

Double Patenting

Applicant is advised that should claim 18 be found allowable, claim 19 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).
